

## END BERLIN STRIKE

COPENHAGEN, April 19.—The latest German newspapers to arrive here, including the *Southern Express*, confirm the semi-official announcement that the Berlin strike was ended. A settlement was reached after an almost unanimous decision by the metal workers to resume work following the granting of their principal demands.

Among the concessions made by the government are compliance with the demands of the union for the establishment of a standing commission of labor representatives which will have a voice in the food distribution in Greater Berlin, a promise that strikers will not be punished by being sent to the front, explicit assurances of adequate food rations and effective measures against evasions of the food regulations by the rich.

## EXPECT LONG WAR

WASHINGTON, April 19.—America's preparedness so far as conservation of foodstuffs is concerned is going forward on a three-years-of-war basis. Officials are convinced that the war may come to an end within a year if Germany is unsuccessful in her efforts to negotiate a separate peace with Russia. If she is successful, and that possibility is nowhere denied, the war will run at least three years more, if not less.

## STEAMER SUNK

LONDON, April 19.—The Norwegian steamship *Paris*, 1643 tons, was sunk on Tuesday, presumably by a German submarine, says a despatch from Christiania to the Morning Post. The *Paris* hailed from Christiania.

## TO FORCE THROUGH CONSCRIPTION ACT

(Continued From Page 1)

... Educational and Co-operative Union; H. I. Zimmer, Ancient Order of Gleaners, and Oliver Wilson, National Grange.

With completion of work on the army bill in sight, the emergency war program is nearing its end and Congress is again talking adjournment.

Many believe now that the session can be ended by June 1. Leaders of both parties are sounding out members as to their opinion on this.

**REPORT NAVY BILL.**  
The administration bill to raise the enlisted strength of the navy to 150,000 men was ordered favorably reported by the Senate naval affairs committee this afternoon.

The first round of the legislative battle for the enactment of a selective draft bill providing for the raising of an army of 500,000 men for service in the war ended in a draw last night.

In the Senate the committee on military affairs, by a 10 to 7 vote, accepted the administration's plan, while in the House committee a provision delegating to the President the responsibility of applying the draft system in the event of the failure of the volunteer plan was adopted, 12 to 8.

Following the action of the committee representative Kahn of California, senior Republican member of the committee and the most earnest supporter of the President's plan, denounced his committee colleagues. He said:

"This action of the majority of the committee on military affairs is manifestly unfair to the President. The substitute provision which they have inserted in the proposed army law is simply a deliberate 'passing of the buck' to the President. It is not a first-footed refusal to enact a conscription law, but a studied avoidance of the responsibility of bringing about and of forcing the President into a position where he has to take the initiative in the matter. In refusing to accept the suggestions of the experts, who have made a study of the question, and in refusing to accept the conviction which the recent bloody experience of Great Britain in the present world war convey, the opposition is seeking to shield itself from possible criticism back home."

"It is a significant fact that the only four members who have actually seen military service in the armies of the United States, and they saw it under the volunteer system, are supporting the administration's contention for passage of the selective draft law. These members are Representatives Greene of Vermont, Crago of Pennsylvania, Lunn of New York and Wilson of Connecticut."

## ALLIES CAPTURE GERMAN POSITIONS

(Continued From Page 1)

German machine-gun attack was stopped.

**ATTACK REPELLED.**  
Further southeast, on the Vaucelles plateau, Nivelles described a German attack of the most violent character launched Wednesday night at 5 o'clock. It was checked in bitter fighting. The assaulting waves were forced to stop before they reached the French lines.

In the Champagne Nivelles reported his troops as "pursuing their success in the Moronvillers region."

"Attacks everywhere were successful," he said, "our troops carrying Mont Haut swell and several heights to the east, including hill 227. During the course of the night two German batteries were captured."

"Between Soissons and Auberive twelve new German divisions have been identified."

"In the region of St. Mihiel a German attack failed."

A week ago first evidence of a breakdown in the morale of the German defenders was observed and reported by the British commanders in the drive around Lens.

**RETREAT IN DISORDER.**  
Today with General Nivelles' French forces in some places more than five miles behind the German lines, the official statements told of a German retreat in general disorder, of abandonment of big quantities of supplies, or something akin to terror among the Germans heretofore held stolid by the iron discipline of the militarist system.

The tremendous number of prisoners captured by the French drive also asserted a demoralization of the enemy, due to their fearful losses, not alone in the fury of the French artillery fire and the dash of the troops themselves, but in the slaughter the German commanders forced on their own men by forlorn-hope counter attacks. By night it is expected the total of German prisoners will reach 20,000. Nearly 100 guns have already been taken.

By Henry Wood,  
United Press Staff Correspondent.

**WITH THE FRENCH ARMIES IN THE FIELD, April 19.**—"Defend at any cost" is the word which has gone along the German front where the French are butting in their great offensive.

What that "cost" has been, without stopping the French drive or even slowing up the forward movement of the offensive, was apparent today in the count of prisoners, in the heaps of German dead and in the demoralization of the defenders apparent everywhere.

The German plan seems to be to gorge the first line of their defenses with troops. They literally gut the first line trenches. The German work fortifications, battered into nothingness by French guns, are apparently being replaced by human bulwarks of massed men. Into these masses of Germans the French fire is playing death with fearful certainty.

The Teuton commanders are exerting every ounce of their strength in trying to hold to the line; they apparently realize it cannot be expected the exhausted German troops will be able to face the terrific French artillery fire in offensive operations.

**PRESS ON ARRAS FRONT.**  
BY INTERNATIONAL NEWS SERVICE.

LONDON, April 19.—Having captured nearly 20,000 Germans in three days' fighting and advanced their lines in many places from four to six miles, the Anglo-French armies today concentrated their heavy pressure against salients on the Teutonic line on the Arras front and on the Aisne river line.

North of the Somme the entire Hindenburg line has been bulged back from Vailly, which the French hold in its entirety, to Courtecon, where they are established on the outskirts of the village. The penetration of the German line at this point is over four miles deep.

**ADMITS FRENCH GAIN.**  
BERLIN, via London, April 19.—French attacks in a great offensive with ambitious objects have so far failed to attain those ends, although some tactical advantages have been gained by the enemy, today's official statement asserted.

"On Tuesday night," the war office reported, "a local attack near Braye succeeded. Near Villy-Aux-Bois, where our position became unsuitable, we established our forces to the rear of the line of fortifications. Attacks at Chemin des Dames and especially violent ones near Craonne sanguinarily failed."

"Official orders found indicate how far-reaching were the objects of the French attack on Monday. The French commands did not realize them at any point practically and only approximately attained their tactical objects."

**WILL FLY FLAG.**  
LONDON, April 19.—The American flag will fly from the great Victoria tower of the houses of parliament on Friday, this being the first time in history that any but the British flag has flown there. The sale of American flags in London has been enormous, many dealers being sold out.

**ACCIDENT VICTIM.**  
Victor G. Newbell of 323 Twenty-fourth street is at his home today, whence he was taken after suffering a badly fractured leg while on a business tour of Modesto and Fresno. Newbell's injuries will incapacitate him for several months. The accident occurred on the highway between Modesto and Fresno last Friday night. Newbell's motorcycle skidded while crossing railroad tracks and fell on the rider's leg. He was first taken to a Modesto hospital, arriving home yesterday.

that he should be accorded a fair hearing and given a square deal."

District Attorney Charles Fickett will call upon Assistant Attorney General Raymond Benjamin this afternoon, and at the suggestion of the grand jury will request that Attorney General U. S. Webb conduct the investigation into the charges of Frank J. Rigall against Oxman. Webb will either act himself or appoint one of his assistants as special prosecutor.

Attorney General Webb was in Sacramento this morning. Attorney Benjamin stated yesterday that Fickett had communicated with his office and had made the request that in the event the grand jury should desire it, the attorney general should act.

Oxman being at liberty for \$500 cash bail, earlier in the day made this statement:

"At the request of your district attorney and in order to vindicate myself, I have come voluntarily from my home in Durkee, Oregon, and am here to testify under oath to the truth, the whole truth and nothing but the truth. I left my home Sunday morning and arrived here Tuesday evening, coming by way of Portland. I have done no wrong. I have committed no crime, and hence I fear nothing. If it is deemed at all necessary, I shall take the stand in the proceedings against me, and fully explain and justify my every word and act in connection with this man Rigall and the charges he has made against me."

## Superfluous Hair Now Removed Roots and All

(New and Instantaneous Home Method)

A boon to women troubled with superfluous hair is the new electrolytic process. It is totally unlike the depilatory, electrical and other methods heretofore employed for the removal of hairy growths. It is the only thing that enables one to remove the hair completely—roots and all—in one's own home, without the assistance of an expert. The result cannot be doubted, for the user sees the hair-roots with her own eyes.

A stick of electrolytic, with easy directions, can be had at any drug store. It is entirely harmless (a child could safely eat it), odorless and non-irritating. Always sold under a money-back guarantee. It is an instantaneous method, and so thorough that the skin is left perfectly smooth and hairless, bearing not the least evidence of its former disfigurement. Advertisement.

AMSTERDAM, via London, April 19.—The Duchess of Brunswick, Emperor William's only daughter, has given birth to a daughter.

The Duchess of Brunswick, formerly Princess Victoria Louise of Hohenzollern, had communicated with his office and had made the request that in the event the grand jury should desire it, the attorney general should act.

Oxman being at liberty for \$500 cash bail, earlier in the day made this statement:

"At the request of your district attorney and in order to vindicate myself, I have come voluntarily from my home in Durkee, Oregon, and am here to testify under oath to the truth, the whole truth and nothing but the truth. ## TRAIN HITS AUTO; GRIMMON INJURED

Robert Grimmon, 6148 Harwood avenue, west of Oakland and San Francisco, is at his home seriously injured as the result of an accident this morning, when a big limousine which he was driving collided with a Southern Pacific electric local train at Seventh and Grove streets.

According to Motorman J. B. Barnes the machine dashed directly in the path of the oncoming train before anything could be done to avert the accident. The automobile was completely demolished and piled in a heap. Passengers on the train were of the opinion that the driver had been killed, but while investigating the wreck were surprised to find Grimmon beneath the debris, apparently unscathed save for a few minor injuries.

Later it was announced at Grimmon's home that he was unconscious and in a very serious condition. He left home last night on business, according to members of his family, and was apparently on his way home.

## 4,000 CITIZENS SEE FLAG RAISED

Patriotic ceremonies attending a flag raising at the Emeryville stockyards were attended by 4000 citizens of Oakland, Emeryville and Berkeley yesterday. Led by a corps of veterans in picturesque cowboy attire, a parade consisting of stock yard officials and employees, members of the Oakland and Berkeley branches of the Grand Army of the Republic, several hundred pupils of the Emeryville schools and a band of music followed the flag to take part in the event.

Exercises accompanying the flag raising included addresses by Commissioner Harry S. Anderson, R. B. Brown and E. G. Wharf, a member of Berkeley G. A. R. Lon Olney, another Berkeley G. A. R. veteran, hoisted the flag while the gathering, led by the school children, sang patriotic songs.

Father Byrnes and Rev. Lapsley A. McAfee of the First Presbyterian Church, Berkeley, offered up prayer. Daniel B. Lacy, superintendent principal of the Emeryville school district, recited a patriotic poem.

## Police Captain Brown to Face Second Stock Inquiry

### Grand Jury's Recommendation to Dismiss the Officer Cause of Probe

Captain of Police Thorvald Brown will be given a hearing before Commissioner F. F. Jackson, head of the department of public health and safety, early next week as the result of Grand Jury recommendation that he be dismissed from the police department for alleged use of his official position to sell oil company stock to gamblers and lottery dealers. Commissioner Jackson said today that he will set the date later.

Captain Brown was vindicated on a similar charge following a hearing before Commissioner Jackson ten days ago. At that time two former lottery dealers, Harry Lesser and Maurice Solomon, testified that they had mistaken former Police Corporal J. J. Conroy for Captain Brown when they purchased stocks of the Oil Land Subdivision Company. As a result Commissioner Jackson dismissed the charges made by the Grand Jury.

During the hearing District Attorney Hynes, who was present, believed that perjured testimony had been given and he immediately summoned the Grand Jury to make a further investigation into the entire matter. Both Lesser and Solomon were recalled before the inquisitorial body. In addition J. P. Beguhl, another lottery man, was examined by the Grand Jury. It is believed that Beguhl's testimony resulted in the recommendation of the Grand Jury that the

case be re-opened by Commissioner Jackson.

Corporal Conroy, who was dismissed by Jackson following a hearing based on similar charges as against Brown, will be given a hearing by the Civil Service Board next Tuesday night on his appeal from the ruling of the commissioner ousting him from the police department.

Most of the witnesses who testified before the Grand Jury in its recent investigation of alleged graft in the police department have been summoned to appear at the hearing. The witnesses summoned are: E. B. Jones, secretary to Commissioner Jackson; Ernest Lund, known as Little Ernest, influential Chinese politician; Lew Gow, Mrs. Wong You, Mah Sou, Mow Lee, Edith Hammond, Sam Kee, S. R. Jacobs, Maurice Solomon, Harry Lesser, Bell Edison and Theresa M. Diobold.

Attorney Henry J. Rogers, who represents Conroy, said today that the Grand Jury made no specific charge against Conroy and that the stock in the Oil Land Subdivision Company, with which Conroy was connected, was sold by salesmen of the company and not by him. Rogers also states that the oil land company's operations were legitimate and that within the past few days news has been received of an oil strike on property close to that owned by the company organized within the police department.

## DEALERS WILL AID PROTECTION MOVE

Urging the depleted condition of local warehouses as an indication of immediate needs, efforts are being made by wholesale grocers and supply houses in San Francisco to establish a "voluntary service" whereby a conservation of foodstuffs may be accomplished coincidentally with the development of increased acreage throughout the state.

The nucleus of the idea is contained in a circular letter sent out by Wellman, Peck & Co., wholesale grocers of San Francisco, to some of the leading dealers of the San Francisco Bay district. It comprehends the establishment of an association of middlemen operating without profit, to assist with time and money in an attempt to link all other factors needed for increased production.

Federal control to prevent the pooling of foodstuffs with a governmental limitation on maximum profits, is one of

## PLAN ADDITIONS TO CURRICULUM

As a result of a conference at the Technical High School, nearly a dozen health courses have been outlined and will be offered in the evening school curriculum next term. Representatives from the Red Cross organization, school department and the various hospitals were present at the meeting.

The following courses will benefit nurses in training: Chemistry and Physics for nurses, elementary bacteriology, elementary biology and physiology. The work has been arranged to meet the state board of health requirements.

At least two courses will be organized under the Red Cross regulations—A course in first aid, which will be handled by a physician, and another in elementary hygiene and home care of the sick, which will be in charge of a trained nurse.

A course which will be of particular interest to mothers is a course in family hygiene, which will include invalid cookery, care and feeding of children, and much other work of great benefit to the home.

It is also planned to have the gymnasium open for both men and women for next year.

The important plans comprehended in the tentative outlines submitted in the communication to the bay dealers. Suggestions are aimed at the increase of increasing California field crops. The letter says:

"The California Development Board is at this time obtaining data on crop locations, acreage, the kind of crops and names of farming interests requiring the voluntary service of men and money to make available for reasonable field crops as large acreage as possible. The idea is a non-profit association of middlemen in co-operation with the State and nation. Later help could be given in an organization to save from wastefulness and to prevent manipulation of the food gamblers, speculators, monopolists and others."

## MYSTERY ADDED TO SCOTT CASE

SAN FRANCISCO, April 19.—A bundle of revenue stamps believed to be the entire \$3300 worth surreptitiously removed from the vault in the office of Joseph J. Scott, United States collector of internal revenue, was deposited at the ferry postoffice this morning. The package was addressed to the United States attorney, and was turned over, it is understood, to Assistant United States Attorney B. A. Thomas, who has been handling the case. Thomas will not admit that the stamps have been restored and have come into his possession. He declined absolutely to discuss the case. The fact that the stamps had mysteriously found their way into the mails was learned on the most reliable authority.

Collector Scott that the theft and the stamps remains a mystery and, although arrests are expected, Thomas said there would be none today. No word has been heard of the \$2000 in coin and currency also alleged to have been taken from the vaults at the same time.

THOMAS SILENT.  
Thomas, although declining to discuss the case, punctured the theory of "The identity of the sender of the prosecution of Betram Thomas for embezzling revenue stamps was closely related. He asserted that there was no connection between them."

It was learned that Scott intended holding a consultation with Thomas this afternoon.

Scott himself will call upon Preston today, according to his statement made last night. "I shall take my side of this case before Preston," he said, "and ask that the Grand Jury probe this matter to the bottom. Developments of a startling nature may be expected from the information that I will place in Preston's hands. Friends of Betram M. Thomas are behind this entire affair, which has for its inception the sole purpose of embarrassing me."

DENIES KNOWLEDGE.  
Attorney Marshall B. Entworth, representing R. M. Thomas, former Internal Revenue agent, now under indictment for embezzlement of stamps, denies that his client knows anything about the causes for Scott's suspension. He said:

"My client was arrested on March 26, and has been under surveillance ever since. It would be foolish to think that he robbed the vault in the collector's office. Furthermore, he tells me that the books supposed to have been taken from the vault contain the proof of his innocence."

The Internal Revenue office was open again for business this morning after having been closed all day yesterday for the purpose of transferring accounts to Acting Collector John Platt.

## 200,000 CHEER IN PATRIOTIC MANIFESTATION

NEW YORK, April 19.—The patriotic spirit of New York was stirred today by reminders of the Battle of Lexington and the beginning of the American fight for independence. Nearly 200,000 persons took active part in parades and meetings and other demonstrations throughout the city.

"Wake up America" began at midnight, ushered in by the ringing of church bells and the cheering of crowds on Broadway, while a young woman in the costume of Paul Revere rode through the streets summoning the men of America to answer their country's call in the new struggle for human liberty.

# SPECIAL FRIDAY & SATURDAY

Notice how different Lux looks from any other soap product you have ever seen: how pure, how transparent each flake is!

Lux is the modern form of soap for all fine laundering—the thin, transparent flakes of pure soap make such a thick soapy lather that without rubbing, Lux easily dissolves the dirt!

Lux positively won't shrink woollens or flannels. It leaves them beautifully soft and supple.

## THIS WONDERFUL NEW PRODUCT

Won't shrink woollens!  
Won't turn silks yellow!  
Won't injure even chiffons!

\* Pure soap in flakes—nothing else like it has ever been made. Not a soap powder, not chipped soap, not a cake of soap, but fine, transparent flakes of pure soap, ready for use. These flakes melt the moment they are thrown into hot water. They dissolve so completely that not the slightest trace of soap is left in the garment to yellow it.

### The hardest test of a soap

The hardest test of any soap product is in washing woollens and flannels, and in the choice of your soap product, lies the secret of complete success in their laundering. The formula for Lux produces a soap product which will not shrink woollens, and which leaves them soft and fluffy, just as they were when new. You may find it difficult to believe that Lux really will not shrink woollens or flannels, but order one package and try it. Think what it means to you to have at last found something which will wash any woolen!

### How you can keep your silk blouse as white as when new

It is the combined action of alkali and hot water on silk which makes it acquire a yellow color which cannot be washed out. With Lux and lukewarm water, you can wash silk fabrics dozens of times and they will not turn yellow. Lux contains no free alkali, and lathers wonderfully, even in lukewarm water! Lux won't harm anything that pure water alone will not injure.

### For fine laundering, soap should never be rubbed directly on the article

For fine laundering, never rub soap directly on a fine article. This coarsens and tends to discolor the fabric. Lux cleanses wonderfully without rubbing. The thin, transparent flakes dissolve instantly, and contain more real cleansing value than you would believe possible.

Order a package now, and test it! That is the way to settle for all time the product you will use for all your fine laundering. Lever Bros., Cambridge, Mass.

**LUX 10¢** Pure Essence of Soap in Flakes

YOU find a dressy shoe is the only kind that really fits in with a dressy suit and hat. A high shoe with a bit of "swank"—smart gray Kid top, rich black Calf vamp and tip. Long slender English lines—a feeling of being hand benched and exclusive.

Our trade is growing every day with people who want this Regal individuality and want it at prices no higher \$8 than ordinary shoes. As illustrated—an unusual value

RATTAN FURNITURE

## WILL GIVE AUTO ON MONDAY NIGHT

Don't forget the fact that The TRIBUNE Chevrolet drawing at the Orpheum is hereafter to be always on Monday night, just as it was originally.

The drawing for the Chevrolet has been held on Tuesday during the last two weeks at the Orpheum because the theater had been sold out each Monday to the Odd Fellows and the Retail Grocers' Association. But after this the night will always be Monday night. Stick a pin in that date on your calendar and make no engagement for that night except the Orpheum.

They are still talking about the excitement on Tuesday at the Orpheum when the fifth Chevrolet car was awarded to W. J. Suhl.

The contest against time made by the Chevrolet managers in assembling a complete automobile also created a lot of interest and it is possible that another crowd of Chevrolet experts will attempt to lower the record made last Tuesday night, this coming Monday night.

**SPECIAL FEATURES.**  
At any rate there will be several special features next Monday night in addition to one of the biggest vaudeville programs the Orpheum has ever brought to Oakland and so it is entirely likely that another record-breaking crowd will jam its way into the Orpheum at that time.

The Orpheum show next week is really worth more than passing mention, for the benefit of the automobile "fans" who now have been confirmed regulars at the Orpheum and for the benefit of everybody else. The theater people say that it is one of the most expensive and noteworthy programs they have ever staged, headed as it is by Pils and French with a big Corps de Ballet and seven other really superior features.

**VALUABLE COUPONS.**  
Your TRIBUNE coupons which you cut from The TRIBUNE every night can be exchanged now and any time for TRIBUNE-Chevrolet shares at the Orpheum box office, and each one of these shares may be the one that may win for you the Chevrolet car next Monday night.

Keep your TRIBUNE coupons. They may be worth a lot to you next Monday. At the request of The TRIBUNE, the Orpheum is now giving each purchaser of an Orpheum ticket five TRIBUNE-Chevrolet shares, so that each ticket buyer now has five times more chance than before. This feature has proved very popular with everybody and has added immensely to the interest in the Chevrolet contest.

**ARE ACQUITTED.**  
CHICAGO, April 19.—Albert Case and Walter Stevens, charged with the murder of Louis Lichtenstein, shot to death in an attempt to rob him and a companion of jewels valued at \$25,000, were found not guilty by a jury.

**EPILEPTIC ATTACKS HAVE BEEN STOPPED FOR OVER 50 YEARS**  
BY DR. KLINE'S EPILEPTIC REMEDY. It is a rational and remarkably successful remedy for Epilepsy (Falling Sickness) and kindred nervous derangements. Get it or order it at any Drug Store—\$1.00 and \$2.00.  
Send for our valuable FREE Book on Epilepsy. It is  
Dr. R. H. Kline Co., Department B, 100 N. 1st St., St. Paul, Minn.

## Youthful Film Star Draws Big Crowd to Show

MARY MILES MINTER.

Oakland Turns Out to Meet Mary Miles Minter Personally at T. & D.

One little girl, 15 years of age, caused unusual activity in the vicinity of Eleventh street and Broadway last night. Also she created much disappointment among several hundred people who were unable to stand in line for the new T. & D. Theater—try though they might.

For the several thousand photography enthusiasts who did manage to squeeze into the theater last night there was reward aplenty. They saw Mary Miles Minter, film comet of tremendous possibilities, and they heard from her own lips just how she did "break into the pictures."

It is quite remarkable that a maiden in person or heard in voice should have the power to attract her following, drawing them forth from their homes much as a Pied Piper might do. The T. & D. patrons fought, actually fought, to pay their money so that they might see the fairy who periodically casts a spell over them. Of course the fighting was polite; nevertheless it reflected anxiety and eagerness.

These personal appearances of "stars" in picture houses are never tests of the photoplay's strength. They tell better than anything else might just how strong screen individualities are. They show us that players as well as plays hold the American interest.

Mary Miles Minter is not old nor tall nor of unusual vivacity. That she is beautiful—any motion picture enthusiast might acclaim, after one view of her on the screen. That she is youthful may be ascertained by a few minutes' conversation with her. That her youth, beauty and healthy view of life make for excellent ability before the camera seems not strange when we realize that her stage experience has been of many years duration. And any observer may be sure to say after once hearing her simple story last night that she is unspoiled by success.

Truly we hope for more personal visits from the little Mutual actress.

**BENEFIT MUSICAL.**  
For the benefit of Oakland Chapter of the American Red Cross a morning musical will be given tomorrow morning in the Technical high school auditorium. The program will be presented by the Pacific Piano Quartet, assisted by Miss Rey Del Valle, soprano. The personnel of the quartet includes Miss Gertrude Livingston, Miss Marguerite Darch, Miss Jennie Rosenberg and Mrs. J. I. Del Valle.

**DANCE PLANNER.**  
The Longfellow School Parent-Teacher Association is giving a neighborhood dance tomorrow night in the school house. Those who have the affair in charge are Mrs. G. Hoffmeyer, Mrs. H. McNeill, Mrs. D. Hoffmeyer, Mrs. W. Hoover.

## M. D. SESION ENDS RIDE IS ENACTED VOLCANO PERIL

SAN DIEGO, April 19.—Election of officers and the selection of Del Monte as the meeting place of the next annual convention of the State Medical Society marked the closing business session at Coronado Hotel last evening. Today the delegates and their wives are guests at social functions and tonight the annual banquet will be held.

The officers elected last night follow:  
Dr. J. H. Barbat of San Francisco, president, to succeed Dr. George Kress of Los Angeles; first vice-president, Dr. W. W. Richardson of Los Angeles; second vice-president, Dr. Morton Gibbons of San Francisco; secretary, Dr. J. E. Phillips of Santa Cruz; treasurer, Dr. J. E. Phillips of Santa Cruz; councilors-at-large, Dr. George H. Kress of Los Angeles, Dr. G. G. Mose-

NEW YORK, April 19.—"The minute men of 1917" were called to arms by the clanging of church bells and the ride of a modern Paul Revere through the streets of Manhattan at midnight as the 112d anniversary of the battle of Lexington began.

Miss Jean Earl Moehle, garbed as the hero of the famous ride of the Revolution, enacted the role of Revere. As she galloped through Fifth avenue and the "white light" district of Broadway she was followed by trumpeters in automobiles. The symbolic warning she sounded was the first act in the celebration here of "Wake up America Day," planned to call recruits for the army and navy to the colors of the United States.

It also was decided to redistrict the State and to add three councilors at large.

SANTIAGO, April 19.—Calbuco volcano, on the southern coast of Chile, is in serious eruption. Great columns of smoke hang over the surrounding mountains and streams of molten lava are flowing down hills and valleys, killing livestock and destroying property. Underground disturbances are felt as far as Puerto. Many of the residents near the base of the volcano are fleeing on the steamer Santa Rosa.

## FEAR FOR FOOD

CHRISTIANA, April 19.—All Scandinavia is worried over the possibility of America shutting off food supplies from neutrals and concentrating on the provisioning of its new allies in the war. The anxiety with which such a possibility is viewed was revealed today by Premier Knudsen of Norway.

# CAPWELLS BASEMENT STORE

## EDITORIAL

In the olden days March and April were the months for house cleaning.

The carpets were taken up and put upon the line for a family beating, every one taking his turn at the job.

The floors were scrubbed and the walls and shelves and nooks and corners were washed.

For several weeks home was more of a nightmare than a joy while Mother rushed around with her head and skirts and sleeves tied up.

We breathed dust, ate dust and slept on the floor. It was a glorious (?) annual carnival of domestic strenuousness.

Today, with imported rugs and hard wood floors, with vacuum cleaners and Japanese boys every week is housecleaning time and its strenuousness is many times diminished because its frequency is so many times multiplied.

Nevertheless, the women folks are still at it and antiseptics, scouring soaps and cleansing preparations are more in demand right now than any other time of the year.

We have full stocks of all housecleaning preparations—Bowman quality assures 100 per cent efficiency—Better be safe than sorry.

## ARE YOU INTERESTED IN BATHING?

If there's any store anywhere with a greater or more complete assortment of bath caps than you'll find here, we can't imagine where it is.

We have them from 25c to \$1.50 in all colors and shapes and kinds from plain driving caps to beach hats.

"Seaside Millionaire" would be an appropriate name for some of the models, for they're really very attractive.

## INTERESTING FACTS REGARDING TRUSSES AND ELASTIC HOSIERY

Every once in a while some one comes into our store and expresses surprise at the low prices at which we quote elastic stockings and bandages, trusses, supporters, etc.

Now, then, there's nothing especially remarkable about our prices on these goods. We make a fair margin of profit (about the same as we make on other merchandise). The remarkable thing, to us, is the fact that the public allows fakirs to fool them on this merchandise.

Unscrupulous people (who capitalize the fear of sick people) surround the selling of trusses, etc., with an air of mystery and charge about 500 per cent extra for the air.

These goods are standard staple merchandise, procurable at set prices from well-known established factories and should be sold just like other articles.

We have both men and women to do the fitting. They understand their business, and they don't scare you to death if they think you've got \$25.

You can get a splendid truss for \$4 or \$5 for example.

## THE BUG CAMPAIGN IS ON—GENERAL GREEN APIS AND HIS ARMY

Well, how are those bugs on your roses getting along this week?

They're doing fine if you haven't been spraying them—they're probably increasing at the rate of about a billion a day. In another week there will be as many bugs on your roses as there are dollars in the war loan.

These bugs are easy to get rid of if you'll just invest one dollar—twenty-five cents of which will buy enough of Bowman's Rose Spray to last all season and 75c of which will buy a spray pump that should last several years.

## WIND BLOWN COMPLEXIONS

Do you care anything about your complexion?

When you get out in the wind, take an auto trip or a yachting cruise, does your skin get all hard and dry and cracked?

You ought to try Benzoin Cream.

If you'll put it on before going out you'll come home feeling fine and looking fine and with a better complexion than you started with. 25c for a trial jar.

## OUR CUSTOMERS GETTING SOME WONDERFUL PHOTOS

Some of our kodak customers are bringing in some wonderfully beautiful snapshots.

The country right now is more beautiful for picture taking than it will be at any other time.

Take your kodak wherever you go.

Snapshots your auto parties, photograph your garden, get pictures of the kiddies, kodak your week-end trips.

Remember today's pictures will be worth their weight in gold twenty years from now.

We will rent you a kodak at nominal charge if you wish one.

## AN APPROPRIATE "SPECIAL"

Tomorrow and Saturday we are going to sell silk lapel flags with little gilt pins 3 for 10c.

We think every man and woman and every school child should wear a flag. Buy all you want at this price, providing we are assured that you will give them away.

We wish we could sell them for even less.

Lakeside 1851.

## ONE HUNDRED SHIPS CAN BE BUILT HERE

Official tender of resources and facilities which, if utilized, would enable more than one hundred wooden ships to be built and launched at one time in Oakland estuary and adjacent waterways, has been made to the Federal Shipping Board at Washington, D. C., by the Oakland Chamber of Commerce, through its president, Joseph H. King. The value of the offer to the government as a war measure is estimated at millions of dollars.

The offer was made following a careful survey of the industrial and ship-building possibilities of the east bay district by a special committee headed by Harry A. Laffler. The investigations of the committee disclosed thousands of feet of available land, both privately and municipally owned, suitable for the work, with transportation facilities superior to anything on the coast. Maps and data covering the plan have been sent to Washington.

The communication containing the offer was addressed to the Hon. William Denham, president of the Federal Shipping Board, and read as follows:

**OFFER MADE.**

"Preliminary studies show available within city limits of Oakland sites for building of at least one hundred ships. Many thousand feet of suitable water frontage municipally controlled. Excellent climatic, transportation, housing and labor conditions. Cheap power, machine shops and Diesel engine plants. Chamber of Commerce and city government desire to co-operate in every way with General Goethals and your board. Maps and data being sent you. Will you accept our services in this matter?"

The offer of the Chamber of Commerce and the City of Oakland for the mobilization of the city's latent resources for federal purposes follows hard upon the heels of the government's insistence for a great wooden fleet. All over the country ship-building yards are beginning to get under way like a huge machine gathering momentum. While many of the yards are going to proceed without waiting for formal contracts, save the promise of a 10 per cent profit when the work is completed, using a type of vessel that is acceptable to the shipping board, the importance of standardization is already being urged.

**WOULD STANDARDIZE.**

The Chamber of Commerce as a part of its plan will urge the standardization of all wooden craft of certain types. Under this plan, keels for more than one hundred wooden vessels can be laid on the same day. The construction work is to be supervised by Major General George W. Goethals under a program outlined by F. Huntington Clark and F. A. Binstock, engineers, who conceived the wooden fleet idea.

The general type of ship contemplated is the design of W. T. Donnelly, a New York marine contractor, which it is believed will revolutionize the shipbuilding industry. The Donnelly type can be constructed more rapidly and cheaply than the usual type and turned out in quantities with little or no effort. By autumn it is the wish of the Federal Shipping Board that not less than 200,000 tons a month be turned out of the various yards with an increase to 500,000 per month by next year.

**WORKERS READY.**

Government orders issued Monday for skilled shipbuilders and ship mechanics to register in San Francisco has resulted in a working list of more than 1000 available skilled workmen being tabulated. Industrial estimates place ten unskilled to one skilled laborer in the shipbuilding business, making an estimated total of more than 10,000 men available in the bay district for the carrying out of the Chamber of Commerce offer.

In regard to local competition problem, while it is conceded that Seattle and Portland may enter into the field on account of their proximity to timber supplies, it is believed that the overwhelming effect of superior transportation, climate and housing accommodations will result in favorable consideration.

**WILL PLAY WHIST.**

Bay View Parlor, N. S. G. W., and Bay Side Parlor, N. D. G. W., will hold their third whist party of the season in Alcatraz hall, Seventh and Peralta streets, tomorrow night. The affair is in charge of A. Hufschmidt and Miss A. McNally.

## U. S. AVIATOR IS BURIED IN FRANCE WITH WAR HONOR

PARIS, April 19.—While a drizzling rain fell and the thunder of cannon echoed in the ears of the mourners, the body of Edmund Genet, American aviator, killed in the service of France, was buried in the military cemetery at Ham, near the spot where he met his death. Ham is behind the Arras-Alone line, along which a mighty battle has been raging for weeks.

Details of Genet's death and burial were received here today. He was killed by the Germans while on escort duty. Just a few hours before he had been engaged in dropping copies of President Wilson's war address over the German lines. He was shot down Monday evening and was buried on Tuesday in a coffin bearing his war cross decoration and the French and United States flags.

The United States flag was flying on Genet's machine when it was downed.

## WOULD REGULATE LOCAL OFFICERS

SACRAMENTO, April 19.—Two preparedness measures, aimed at extending the power of the governor over county peace officers during the period of the war and authorizing the creation of a state defense guard of 1000 men over the age of 30 years, will be introduced in the legislature this week at the instance of the state council of defense and with the recommendation of Governor Stephens. It was announced by members of the executive committee of the defense body. The two measures have been under discussion by the executive committee for nearly two weeks, but their provisions and details were only finally approved late last evening. It was understood that the bills represent the only legislative recommendations that will be made, and with their introduction every effort will be made to obtain their passage within a few days.

## WAGE INCREASES MEAN HIGH TAX

Frank Colbourn, secretary of the civil service board, today reported that if the request of the Civil Service Employees' Association of the city that a 25 per cent increase in wages be provided for in the new budget is allowed it will mean an additional expenditure of \$332,500, or an increase of 17 cents on the tax levy. Last year the salary roll entailed an expenditure of \$1,330,000. The board and the city council are considering the proposition.

## PORKER TO A LOT

SHAWNEE, Okla., April 19.—A pig on every 30-foot lot, with city physicians as official inspectors of pig pens, is proposed by Alderman Cobb as a solution of the high cost of living, "for the poor laborers who are not making more than \$3 a day." The city dads considered the matter of restoring citizenship to the hog and then referred the resolution to the health department.

## COLLEGE DEAN TAKES OFFICE AT \$1 PER MONTH

WASHINGTON, April 19.—Secretary Baker today announced the appointment of Frederick P. Keppel, dean of Columbia University, as an assistant secretary of war, with the indefinite assignment of advising and helping the secretary in any way possible and the nominal salary of \$1 a month. Keppel is a Republican, a lawyer, and is widely known in college circles. He recently volunteered to serve in any capacity for the war without pay and Secretary Baker decided to make him his assistant. The small salary was provided because of a legal prohibition against employment of federal officials without pay.

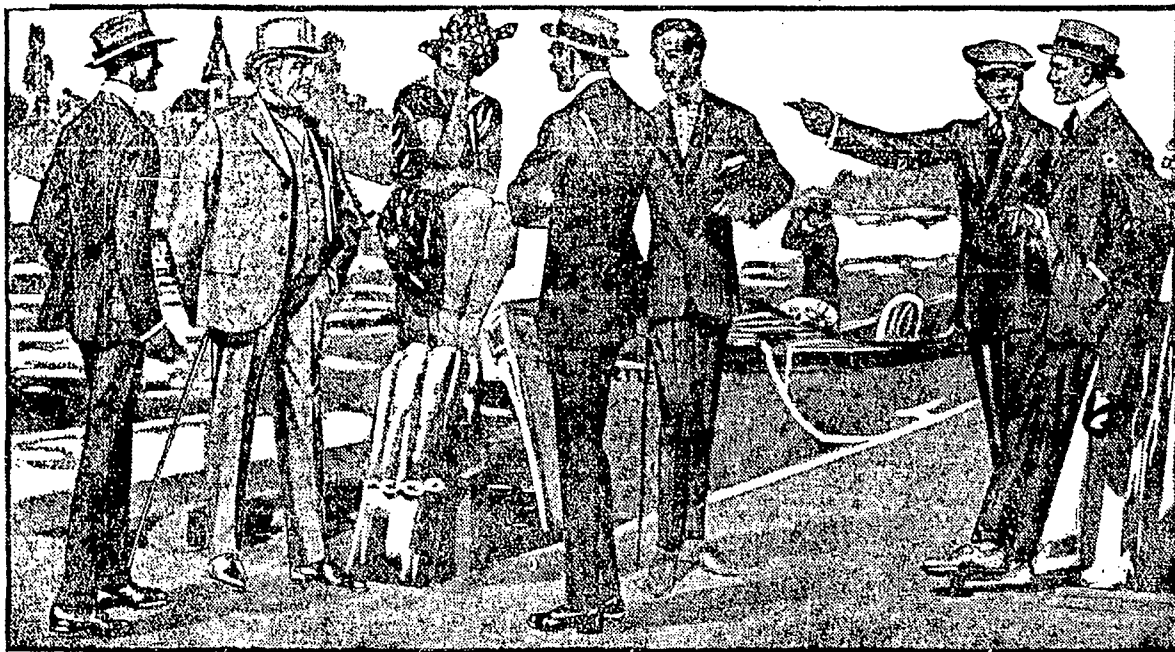

Keppel, who expected to assume his new duties today, is secretary and editor of the American Association for International Conciliation and a chevalier in the Legion of Honor of France. He is 42 years old and lives in New York.

## SAN FRANCISCAN TO HEAD CLUBWOMEN

EUREKA, April 19.—Mrs. Frank Fredericks of San Francisco was elected president of the San Francisco district of the California Federation of Women's Clubs at the convention session here today. Other officers elected were: Vice-president, Mrs. George D. Murray, Eureka; recording secretary, Mrs. George Tannehill, Dixon; corresponding secretary, Mrs. J. H. Perrine, Oakland; treasurer, Mrs. M. E. Fuchan, Palo Alto; auditor, Mrs. Frank Postwick, San Francisco.

This afternoon the clubwomen are enjoying a tour of the slattern part of Humboldt county, being guests of the clubwomen of Fortuna and Leta.

**DIES IN GALLERY.**  
WASHINGTON, April 19.—T. J. Mahoney, an attorney of Omaha, dropped dead of heart failure today in the Senate gallery.

## The Last Thing We Put In Is the Label

—and we insist, our label stands for more than any other mark or sign in the clothing world. It means that every garment carrying it is *absolutely, positively, and unconditionally guaranteed all-wool and fast color, guaranteed perfect fitting and to give lasting satisfaction.* We make most of our Suits in our own New York factory which is devoted exclusively to the wants of our own customers. Our factory is not operated for profit. It costs this factory nothing to sell its goods and it costs us nothing to do our buying. Then again, we save a tremendous amount of money on rent because all the stores in our transcontinental chain from California to New York are located Upstairs. They are all outfitted in the most inexpensive, simple manner possible. All the way through we save every cent we can. That's exactly how and why we can and do offer you this countless number of opportunities for buying

# PAST YEAR BIGGEST FOR S. P. SYSTEM

The Southern Pacific Railroad Company found the year 1916 the biggest year in its history, according to the annual report of the board of directors made public this afternoon.

"The gross revenues were \$163,255,626," says the report, "which not only exceeded the earnings during the previous calendar year by \$20,959,517.30, but surpassed the earnings during the fiscal year ending June 30, 1916."

In analyzing the income of the road, the report shows that freight traffic was the main source of increased revenues, various causes resulting in decreased passenger revenues.

"It is estimated that the commission of automobiles deprived your company's lines of earnings in excess of \$1,000,000," the report says, but adds that earnings of \$1,150,000 accrued from transporting troops to the Mexican border.

In reference to the car shortage, which has been serious throughout the country, the report points out that while there has been a scarcity of rolling stock, the improvement in loading and handling methods made possible the handling of 43.45 per cent greater ton mileage than in 1915.

Referring briefly to the passage of the Adamson law and its effect, the estimate is made that the law will increase the payrolls of the Southern Pacific by between \$1,750,000 and \$2,000,000.

## AAHMES TEMPLE TO OFFER AID IN RED CROSS WORK

Aahmes Temple, Ancient Arabic Order of the Nobles of the Mystic Shrine, at its regular monthly business meeting last night unanimously adopted a resolution empowering the illustrious potentate to appoint a special committee of three, to be known as the permanent Red Cross committee of Aahmes Temple, which committee is to have full charge of all the Red Cross work among the Shriners in Oakland.

Dr. J. Loran Pease, illustrious potentate of Aahmes Temple, has appointed the following on this committee: Dr. Kirby Smith, health officer of the city of Oakland, as chairman; A. J. Ott of Berkeley and George S. Meredith, prominent banker of Oakland. This committee will immediately get into touch with the Oakland Chapter of the American Red Cross Society to make plans to gather funds by various means—these funds to be turned over to the chapter.

## NOT LAND DUMMY

NEW YORK, April 19.—Edwin L. Powell of Boston today denied he had been asked to act as a dummy locator on California oil lands by L. B. McMurtry, a mining promoter, who is a prominent figure in a suit brought by the government to recover oil lands valued at \$35,000,000.

In his testimony today Powell said he had received a check for \$250 in full payment for all lands located in his name. The witness did not know how much land was located in his name, he said, and was ignorant of contracts through which McMurtry is said to have sold the lands.

## BODY A MYSTERY

SANTA ROSA, April 19.—Nails neatly manicured, dressed apparently for hunting or fishing and a mass of identification removed from the clothing, the body of an unidentified man, about 35 years of age, was taken from the Russian river today.

## RATIFICATION OF PORT ACT ARGUED

Arguments regarding the advisability of ratifying the amendment to the Oakland city charter, regulating the control of the waterfront leases were presented before the legislative committee in Sacramento yesterday both by personal delegation and by letter. John W. Phillips, chairman of the Citizens' committee for Outer Harbor Development, being unable to visit the capital, sent a letter, outlining the ideas of his organization as follows:

"At a joint conference between a sub-committee representing the Committee of Fifteen and the Port Commission, an agreement was entered into by and between the Smith interests and said sub-committee, at which time Harrison S. Robinson, Charles E. Snook, B. H. Pendleton, A. S. Lavenson and myself agreed to a plan that was mutually satisfactory to all concerned. The ninety-nine year lease was eliminated, and a fifty-year lease substituted; other terms were agreed upon at that time. When the report was submitted to the Committee of Fifteen it was unanimously endorsed, also by improvement clubs and other organizations of Oakland. When the Committee of Fifteen was called together, the members repudiated the said agreement, and thus attempted to do all that was accomplished. Such action by the Committee of Fifteen forced the Smith interests to the conclusion that there was a concerted action to defeat the project, and this, together with the irresponsible charges that were made in a certain local paper, compelled us to take the stand they did, for which no one can blame them. Even with the withdrawal of the Smith interests, however, we are still asking for the ratification of the amendment, for the reason that we may be interested in Eastern capital to come in and make a like or similar proposition for the development of that portion of our western waterfront.

"If this amendment is not ratified, it will shut off any possibility of the development of the western waterfront for two years at least, because no large capital will come in on such a large lease as twenty-five years, and no practical harm can occur to the city of Oakland in any way by ratifying this amendment at this time, especially with the fifty-year clause agreed upon; and, again, when we consider that any lease must be re-submitted to the people before it becomes effective."

Roscoe D. Jones, A. S. Lavenson, Harrison S. Robinson, G. B. Danile, Dr. L. B. Pendleton, Charles E. Snook, P. H. Adams and Mayor John L. Davis visited Sacramento yesterday as representatives of the Committee of Fifteen. They presented the argument that several twenty-five year leases are already in successful operation, and that if the amendment is not ratified now, a substitute amendment will be submitted soon placing the lease limit at fifty years in conformity with the State law.

## SENATE FAVORS TAX EXEMPTION

SACRAMENTO, April 19.—A proposed constitutional amendment which seeks to exempt the property of the Young Men's Christian Association and the Young Women's Christian Association from taxation, in the same manner that churches are now exempted, will be submitted to the people at the next general election by reason of the Senate's action yesterday in approving the amendment as it came from the lower House. The measure had its opponents, however, and received only 27 votes, which is the necessary two-thirds required to approve amendments. The opposing Senators took the stand that to exempt the two associations provided the election to appoint members of the board of supervisors would be a course, would be to invite other religious or semi-religious bodies to ask the same exemptions.

Senator Lacey of San Diego, championing the measure, answered the opponents with the statement that the people at least should be given an opportunity to vote on the question. Twenty Senate bills and sixteen Assembly bills received approval. McDonald of San Francisco was granted consideration of his bill permitting county supervisors to establish public health centers, and after a call of the House had been invoked to raise up opposing Senators he succeeded in overturning the unfavorable vote of last Monday. The bill now goes to the Assembly. The measure would allow the establishment of medical centers or clinics where children would receive treatment.

## UNANIMOUS VOTE REJECTS "BOOST"

SACRAMENTO, April 19.—A record for friendliness was made by a bill in the assembly last night when EXAS's measure to force subscription to two educational magazines upon school superintendents received forty-six negative votes and no ayes. The San Mateo assemblyman voted against his own bill. It was shown that the two magazines, required by the bill to be California publications, have virtually no competitors in the state.

The claim of the estate of John Kelly for reimbursement upon some \$60,000 of service said to have arisen out of Kelly's financing the constitutional convention of 1879 came up again tonight, as it has done regularly for about thirty years. It was approved 42 to 14.

Women on juries, as provided for by Senator Benson, won approval in the assembly after a long debate. The simple substitution of "persons" for "body of men" in the code of civil procedure received the favorable vote of forty-four to twenty-seven.

SAN FRANCISCO, April 19.—With the tender today to have arisen out of Kelly's financing the constitutional convention of 1879 came up again tonight, as it has done regularly for about thirty years. It was approved 42 to 14.

Women on juries, as provided for by Senator Benson, won approval in the assembly after a long debate. The simple substitution of "persons" for "body of men" in the code of civil procedure received the favorable vote of forty-four to twenty-seven.

Women on juries, as provided for by Senator Benson, won approval in the assembly after a long debate. The simple substitution of "persons" for "body of men" in the code of civil procedure received the favorable vote of forty-four to twenty-seven.

# It's toasted

AS you bite into your crisp slice of morning toast, give it an extra thought. Think how delicious it is; freshly-made, buttered hot.

Toast is an everyday matter, of course, but one of the real things you have to be thankful for.

Now you're ready for the special idea on this delicious new Lucky Strike cigarette. The tobacco—it's toasted; and doesn't that give it a flavor though? Well, *you know!*

We've been working for five years to make a cigarette out of Burley tobacco. It's "blame good" tobacco: and you smokers have shown us how strong you were for it.

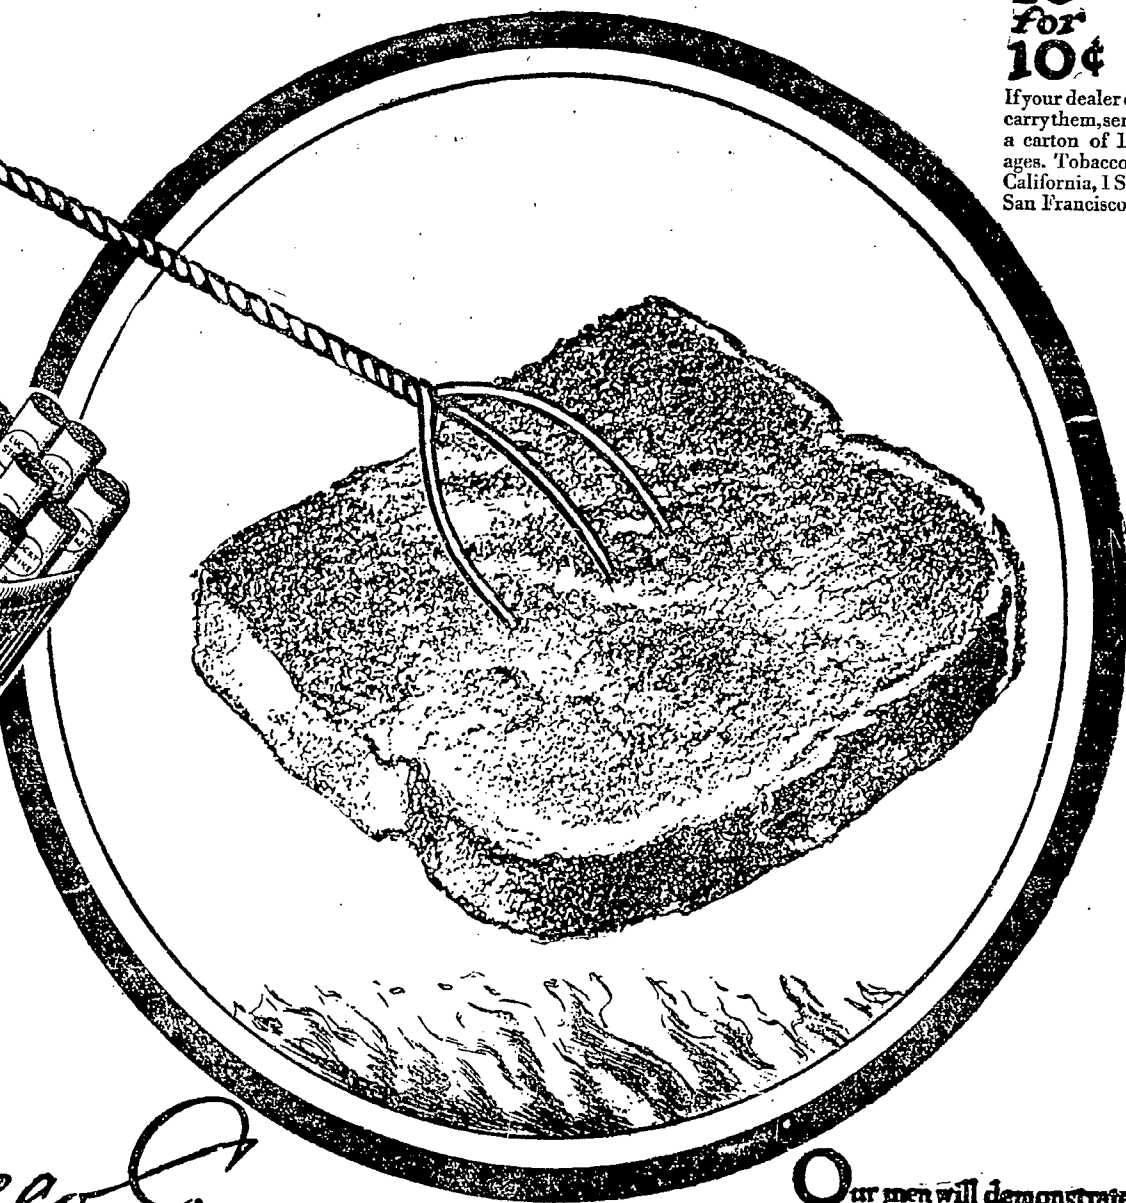

Last year you poured sixty million pounds out of those green, red and blue tins. That's enough for 35 billion cigarettes—against about 21 billion ready-made cigarettes sold in 1916. Considerable Burley enthusiasm!

## Big discoveries are simple ideas

Until we went back to the toasting fork and old kitchen stove, to the simple idea of hot buttered toast, a ready-made Burley cigarette wasn't possible. The Burley flavor didn't hold. But now it does.

## Now Lucky Strike—the real Burley cigarette

It's toasted—and the flavor holds. It's toasted—the result is delicious, full of flavor. Keep thinking of that hot buttered toast—and try a Lucky Strike cigarette today.

THURSDAY, APRIL 19, 1917.

the candidates had, without a very pressing invitation from any source, imposed themselves upon the electorate, accounted for most of the lack of interest. But the citizens of a community cannot be excused for neglect of their highest civic duty because of such conditions. It reduces popular elections altogether too near to a farce. Incompetent and dishonest officials slip into office while the voters are indifferent.

## FEDERAL FARM BANK LOANS.

Many requests have been received by THE TRIBUNE during the last few weeks for information regarding the method necessary to be followed in obtaining loans from the federal farm loan banks. At best this newspaper could only undertake to answer inquiries in the most general terms. The detailed procedure adopted by the banks has not been made public, probably for the reason that the directors have not definitely decided all the numerous points that may be raised during the first stages of the administration of the farm loan system. But these general essential features of the system may be stated:

No loan may be made except upon the security of first mortgages. The amount of the mortgage cannot exceed one-half the appraised value of the land and 20 percent of the permanent improvements thereon, and the latter must be insured. The borrower must agree to apply the proceeds of the loan toward the discharge of pre-existing indebtedness or for productive purposes, which include the purchase of livestock, fertilizer, equipment and improvements. Every loan agreement must contain provisions for paying off the loan, principal and interest, in fixed annual or semi-annual installments.

Persons who contemplate negotiating loans with the government and who wish to obtain information related to their special project should apply to the president of the federal farm loan bank at Berkeley. It is both the duty and the desire of this official to furnish such information as may be demanded. Each prospective borrower may require a special answer to fit his case and the bank is prepared to make the necessary investigation and furnish full information.

## READY FOR ACTION.

Following the impressive example of the House, the United States Senate approved the seven-billion-dollar loan issue to finance the war by a unanimous vote.

The President now has at his command all the money needed to initiate all the great projects which will necessarily be connected with America's participation in the war.

Henceforth let the nation be seen in action characterized by unprecedented energy, speed and precision for the accomplishment of the task which has been forced upon it.

## THE DESTROYING PACIFISTS.

To the Editor of The Tribune:

I have observed this war at short range, having dodged shells upon the European front and having visited the camps, munition works and hospitals of England and France. I have seen the wounded and the dead, the widows and orphans, and the ruins not only of buildings but of broad fields which can never again be tilled—none of the pomp and circumstance of war but all of its horror.

Again and again I have heard the remark, "If England had only listened to Lord Roberts! If we had only been ready this would never have happened!"

I quickly became convinced that what I saw was no more the result of war than it was the result of the pacifist. Noble buildings which were the work of the imagination of the ancient artist are now in a condition which may truly be said to be the work of the lack of imagination of the modern pacifist. His smooth fat hand has wrought as much destruction as the mailed fist of the Kaiser.

Since returning from battle-scarred Europe I have traveled our own land from north to south and from east to west. Everywhere I find prosperity, but there is lacking that presence of a national soul (which may be nothing but the sense of a common unselfish purpose) which pervaded my days and nights in Europe. It lies in the power of our Congress to give our people that feeling of a common cause which alone will give us strength, which will bind the rich to the poor and the poor to the rich and make each one of us feel and know that we have a truly great country not because of its resources, but because of its ideals and because we have the strength to make those ideals something more than idle dreams.

We only value that which has cost us something. Let every young man give but his little share of time and work to the United States and he will become a true patriot. The plan proposed is so simple, so small in cost and so immeasurably great in value that it should not be necessary for a single man to raise his voice in its favor. Even if no emergency were now apparent, universal training should be adopted without delay for the unifying effect that it would bring to our people, and even if we could see in it no such spiritual benefit it should be adopted to straighten the backs and fill out the chests of our slouching boys and to teach them the first principles of hygiene.

There can be but little doubt that our Congressmen are individually in favor of this measure, but perhaps they are not sure of the attitude towards it of those whom they represent. In this case it may be suggested to them that they visualize the supporters and the opponent of universal service. In one rank are seen those whose faces are bright with knowledge and ennobled by the desire to serve. In the opposing ranks are the unenlightened, those who have never felt the thrill of a common cause and who have no sympathy either above or below themselves in the social scale.

Shall we permit this fair land to fall an easy prey to the wild beasts which have devoured Belgium and harried all of Western Europe? In later years shall one of us say to another, "That ruined church shows the hand of Villard"; "That crippled man makes me think of Pinchot"? Save us from the work of these architects of destruction.

Yours truly,  
THOMAS ROBINS,  
Secretary Naval Consulting Board.  
New York, April 5, 1917.

## NOTES and COMMENT

Little Rhode Island has come to it. She is the first of the New England States to accord votes to women. The Governor has signed the measure making them eligible to vote at Presidential elections. But Massachusetts went on record coincidentally the other way.

A "sword of honor" has been sent the Kaiser by the Sultan. The greatest of all jokers is he whose funny actions are unconscious. Nobody but a Turk could do such a thing as that.

The wrecking of mines and villages as the Teutons retreat will not stop the pursuers, nor its effect fall upon them primarily. But it will be a wicked handicap upon the people whose country has been so ruthlessly invaded, and who are left outraged and impoverished.

They have their pacifists in Buenos Ayres as well as in the United States. And the consequences are the same, only somewhat exaggerated. There is overt and violent disapproval of their public activity.

The story from Mexico of an uprising on May 1, when Carranza is to be installed as president, the uprising to have a German incitement, does not at this distance have the earmarks of probability.

Henry Ford has waived all rights to his tractor in England, so that the British government can go ahead and make it unrestrained and use it on the farms. The need for such power is keenly felt in the scarcity of horses. This is the work of a real peace dove.

Hallstones in Nebraska so big that they smashed through roofs is one of the items of news that reconcile us to the slightly "off" spring weather that has occurred here.

Severe fines for violators of automobile laws will doubtless have effect upon responsible persons; but there are so many irresponsibles abroad with automobiles that there is despair of impressing them. Nothing but jail sentences will fit their cases.

Spitters in San Francisco are to be haled before the law with the utmost rigor hereafter. The great American habit is to be discouraged by fines and sentences. The crusade, extended to this city, would result in a net full of culprits the very first day.

One of the ingenious taxes to help out the war emergency is that proposed by Judge P. V. Wood, a former Oaklander, who has gained attention at Washington. It proposes a tax of \$5 on every dog. The number of persons who would find that they could get along without a canine, if such a tax was put in force, would be legion.

The Irrigator discloses Patterson nomenclature in this item: "Gust Nygren and Gus Garvik left Thursday evening for a trip East."

Some compensation in the exceptional weather, according to the Stockton Mail: "Usually before we pay the last coal bill it is time to order the ice man, but this season is a notable exception. It's too warm for the furnace, but not warm enough for ice even if it is the middle of April. That's once we win."

## SPIRIT OF THE STATE PRESS

Fourteen deputy sheriffs were sworn into service yesterday at the sheriff's office for the purpose of guarding the irrigation ditches of the Balfour-Guthrie Company at Brentwood. The Balfour-Guthrie Company, fearing that some attempt might be made to damage the seven miles of concrete irrigation ditches and the seven mammoth pumping stations, which were constructed at a cost of over a million dollars, has taken the precaution of having the sheriff's office place an armed guard over the entire line of their extensive system.—Martinez Gazette.

The Fresno Mirror is entitled to credit for the best epigrammatic statement of the faults of our schools. It says the schools should educate and not mediate. It is remarkable that, in view of the jealous regard which Americans have for their personal affairs, they should tolerate so much intrusion by the school over-parent. When teachers inquire how often mothers change the sheets, how often the bath tub is used at home, the nature of the food consumed, etc., it suggests that splinterhood rather than motherhood has taken over the guardianship of the homes.—Stockton Mail.

## THE FIFE AND DRUM

To the Editor of The Tribune:

There is noted a slow enlistment here, in the army and navy. It is not due to any lack of patriotism and red blood. The blood needs stirring up. For some reason the fife and drum were banished from the army and are heard no more. If a fifer and drummer, one bass and one snare, would march down Broadway they would get more recruits than all the mass meetings and speeches. Maybe no one knows how to play "the spirit stirring fife," but it is the best recruiting officer the army ever had.

By all means let us hear it again.  
JNO. P. IRISH.  
Oakland, April 18, 1917.

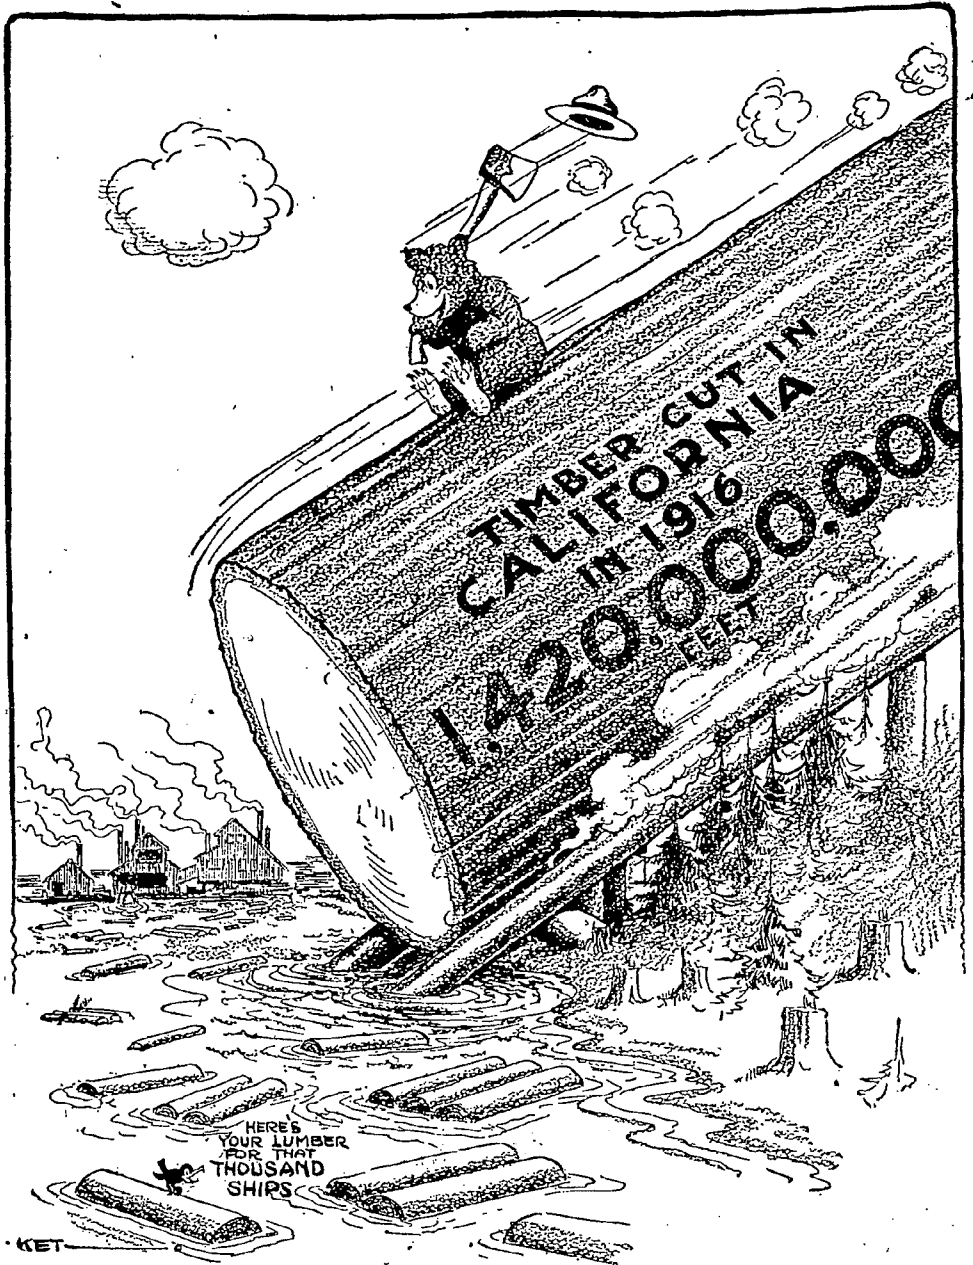

## THE LIMITATIONS OF AGE

The other night when me an' Jim Was watchin' our gray hairs 't see The which was oldest, me or him, An' limberest an' spryest, he Just frogged a tie post three foot high An' broke his wishbone, mighty nigh!

I swan, I thought I had more sense Than ever try 't foller him! Thinks I: "Well, dumb the consequence, I'm jist as pert an' spry as Jim!" I hitched my pants to an' split an' then I frogged that tie post back again!

But, law, it touched that wound of his He got the time the army was! An' me—I got the roomatiz Like what sich foolin' allus does! An' now us two ol' fools can see We're older than we used to be —John D. Walls, in Buffalo News.

## SOME LOG.

## TODAY 20 YEARS AGO

The men employed in the vineyards of Washington township went out on strike, with two exceptions. They have been receiving \$1.25 a day, out of which they have boarded themselves, and they refuse to resume work unless paid \$1.50.

Mr. and Mrs. F. M. Smith gave a reception at their home, Arbor Villa, in honor of Dr. J. K. McLean and the graduating class of the Pacific Theological Seminary.

Captain George Cumming of East Fourteenth street is particularly interested in the fate of the ship Three Brothers, which has at last been turned into a coal hulk at Gibraltar. He commanded the historic vessel all the time she sailed under the American flag.

One of the events of the year at the University of California took place tonight, when the freshmen attempted to bury the algebra, or Bourdon, and Professor Minto's English text book, which they finished this term, and the freshmen used their utmost efforts to break up the celebration.

## 'MILLIONAIRE MOTHER' IN COUNTY JAIL

Once Had Fortune; Now Held in Default of \$500 Bail; Is Now Charged With Fraud

Her money gone, and the friends of her "primrose" days turned against her, Mrs. Edith Amos, whose spectacular career involved the adoption of a 27-year-old cafe singer and won for her the sobriquet of the "millionaire mother of the Great White Way," is under arrest in the county jail at Los Angeles on a charge of obtaining money under false pretences. Only the matter of \$500 bail which she cannot furnish, and which she frequently spent in a single night, stands between her and freedom.

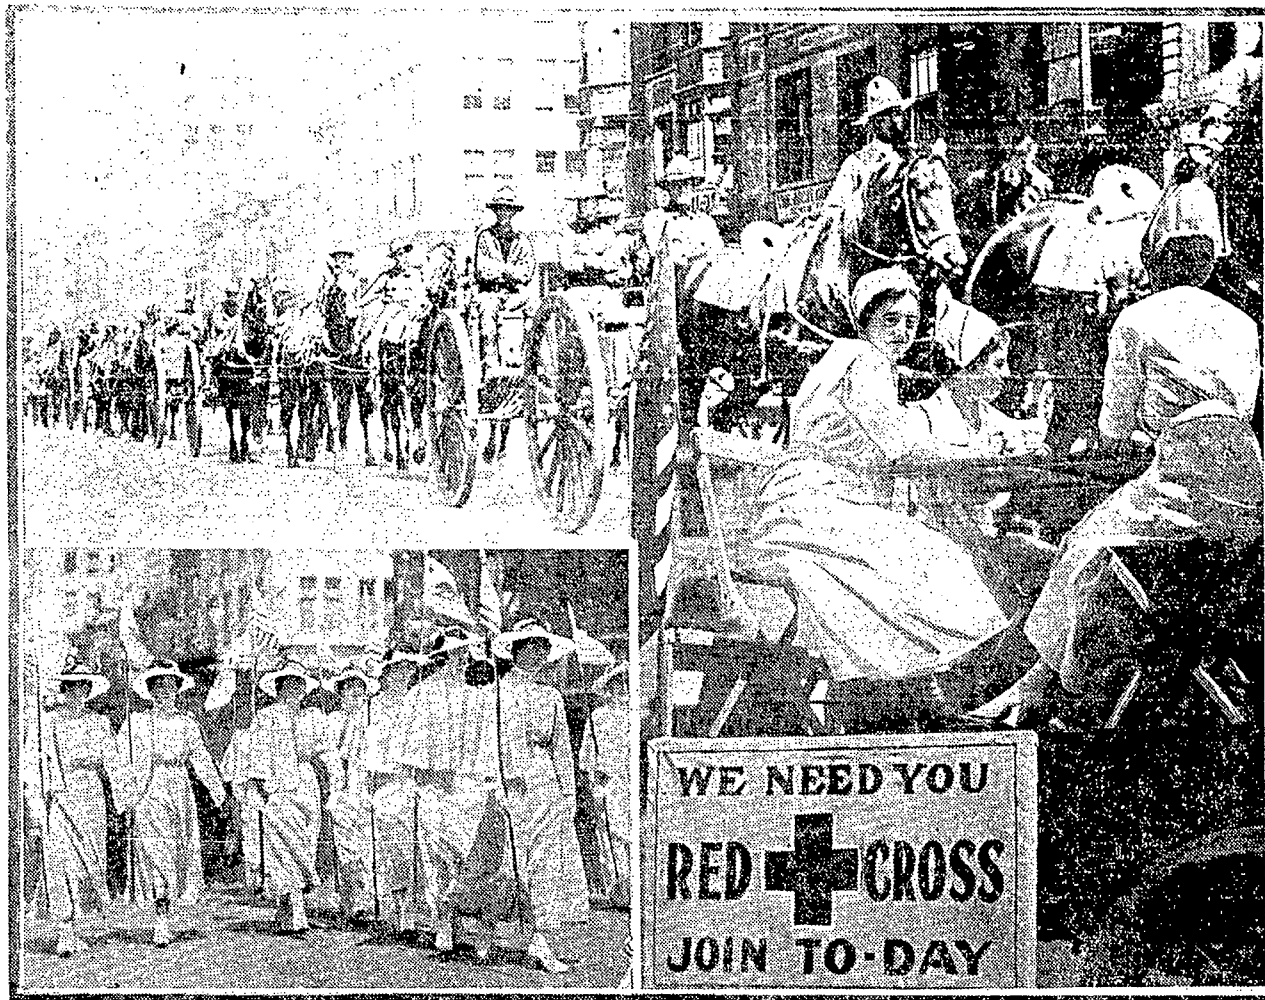

The sensational career of Mrs. Amos began about two years ago, when on the death of her mother, Mrs. Mary A. Burt of San Francisco, she came into a fortune of \$50,000. With a passion for music and dancing, she drifted into the cafe life of San Francisco and Oakland, where she was a familiar figure. It was here that she met Alois Maier, the cabaret singer, whom she adopted.

DAMAGE SUIT.  
Then came the \$50,000 damage suit filed against her by Louis A. Sullivan of Oakland. In this suit Sullivan claimed the woman had lacerated his heart in that amount because of her whim in adopting Maier and refusing to marry him. This she denied and declared the adoption was of purely philanthropic motives. The suit was later withdrawn at Sullivan's own request.

Later in San Francisco Mrs. Amos figured in a dramatic automobile accident which again brought her into the limelight. At that time she was arrested but later released. A few months ago she was taken into custody by State detectives on a charge of violating the opium traffic, but succeeded in securing her release and escaping prosecution.

SOLID PROPERTY.  
The particular charge on which she is being held is for the alleged sale of furniture on which there was a mortgage. The bail was fixed at \$500 and Mrs. Amos made ineffectual attempts to secure it from friends that once had been her boon companions of the night life. One and all they refused to come to her assistance. In default of the necessary amount she will have to remain in the county jail.

## ARTILLERY UNITS IN REAL TEST AT DEMONSTRATION FOR RED CROSS

Some of the features of the big parade held yesterday in behalf of the Oakland Red Cross. The boys of Battery B were in the line of march. Red Cross nurses are shown marching in the form of a cross. They are also shown riding while seated at a table ready to sign recruits to the movement they represent.

### NOTABLE GUESTS

WASHINGTON, April 19.—The British high commissioners who will be guests of the nation were announced by the state department today as follows:  
Right Honorable Arthur James Balfour, M. P.; the Hon. Sir Drum-

mond, K. C. M. G., C. B.; Ian Malcolm, M. P.; C. F. Darnley, G. E. C. B.; Rear Admiral Sir Dudley R. S. Dechair, K. C. B. M. P. V. O.; Fleet Paymaster Lawford, D. S. O., admiral; Major General G. Bridges, C. M. G., D. N. O.; Captain H. H. Shender-Clay, M. P.; Lord Cunliffe, governor of the Bank of England.

### Preparations for War Being Hurried in All U. S. Branches

If it comes to the real test Battery B will serve its guns as efficiently as any other artillery unit on the coast, opined experts after witnessing a sharp if pseudo action between the gunners of that crack unit and the naval reserves at Neptune Beach yesterday. The sham battle was part of a Red Cross day program which started with a downtown parade, in which the Oakland police, Native Daughters, Battery B, Naval reserves and cadets of the Technical high school took part. With two pieces of light field artillery the boys of Battery B defended a section of the beach while the naval reserves acted as the attacking force. After a sham fight of forty-five minutes Battery B still kept its ground.

What the American Red Cross means to the defense units of the nation was demonstrated by Red Cross workers. Girls dressed as Red Cross nurses distributed literature on the Red Cross organization. The unfurling of a big American flag by Miss Irene Britton Quick, assisted by several other girls dressed in white, was a feature.

PREPARATION ACTIVE.  
War preparation, both naval and military, as well as in the Red Cross is being energetically carried out in the east bay communities. The program has been completed for an entertainment to be held at the First Baptist church tomorrow evening for the benefit of Oakland Chapter of the American Red Cross. Besides the soloists who are contributing to the concert the chorus choir of forty-five voices under the direction of K. A. Woodward will sing four choral numbers. Mrs. Martha Dukes Parker, well-known organist, will be the accompanist. Tickets for the concert may be obtained at Sherman, Clay & Co.'s.

The Zenda Dancing Club will give a Red Cross benefit in Jenny Lind Hall, 2229 Telegraph avenue, Friday evening, May 3. C. H. McFadden has charge of the arrangements. According to present plans Chief of Police Walter J. Petersen will give an address that evening.

Various employees of the Red Cross organization in the downtown stores have turned in 1350 memberships to the Oakland Chapter.

Battery B recruited its usual six recruits yesterday and would have probably exceeded that number if the battery had not closed its headquarters to engage in the sham battle.

NEW MEN ACCEPTED.  
Four recruits from Watsonville, two from Monterey and one from Oakland were accepted in the United States steamship Albatross yesterday. Dr. Annie Williams, a woman physician and surgeon of Hayward, applied at the Albatross and offered her services to the government. She was placed on the reserve list of the navy, to be called on in case of necessity.

Lieutenant Colonel Charles Lynch of the medical corps of the United States army will deliver the third of a series of lectures to the students and faculty of the Oakland College of Medicine and Surgery on Monday morning, April 23. He will speak on "Military Medicine."

That they may be prepared in case of emergency, 125 girls of the Ala-

meda high school are receiving instruction in first aid and elementary hygiene preparatory to receiving Red Cross certificates. Dr. Ruth Risdon and Miss Laura Cains are giving the instruction under the auspices of the extension department of the University of California.

### 500 VOLUNTEERS EXPECTED TO MEET TONIGHT

Five hundred men, ready to give their services to the country whenever needed, will be present at the first gathering of the Oakland volunteers in the city hall tonight, according to Chief of Police Peterson's estimate today. More than 300 men have signed the rolls of the volunteers and they were asked in the call for the meeting tonight to "bring a friend along."

Lieutenant P. R. Sessions, U. S. A., stationed at Fort Barry, in a communication to Chief Peterson today offered his services in any capacity that his experience will enable him to serve, especially along the lines of drilling recruits of the volunteers.

If I can be of any service let me know," Lieutenant Sessions writes. He is a graduate of the United States military academy and has ten years of military experience to his credit.

With the offer of regular army officers to assist in the organization and instruction of the volunteers, it is assured that the efforts of the Oakland regiment to become an important factor in the national defense will result in prompt efficiency.

The meeting tonight will be for the purpose of forming a temporary organization so that steps can be taken to obtain equipment for drilling the volunteers.

### D. W. Sisson Dies

Daniel W. Sisson, for the past eighteen years an Oakland resident, died this morning at the home of his son, Dr. Ernest Sisson, 1611 Castro street, after an illness of long duration. He was 59 years old, a native of Indiana, but had resided in Illinois and California during a great part of his life.

Immediate relatives surviving include a widow, Mrs. Margaret Gibson Sisson; one son, Dr. Ernest Sisson, and four daughters, Dr. Effie Sisson and Mrs. M. S. Gilford, Oakland, and Mrs. Ida S. Potter and Dr. Ada B. Sisson of Santa Rosa. Following private services at the Castro street residence tomorrow, the body will be shipped to Mason, Illinois, for burial.

### GARBAGE VS. GARBAGE

When Giovanni Casati, a garbage collector, became peeved at the result of negligence on the part of one of his customers to pay his fees he retaliated by depositing a quantity of odoriferous collections upon the doorstep of T. J. Cookney, at 1025 Castro street, according to police report today, following the arrest of Casati for placing refuse in prohibited places.

## SNYDER IS NAMED HEAD OF N. S. G. W.

Annual Celebration Will Be Ended; Oakland Man Is Named as Grand Trustee

REDDING, April 19.—Jo V. Snyder of Nevada City was elected grand president of the Grand Parlor of the Native Sons of the Golden West in session here today.

Other grand officers elected were: W. F. Toomey, Fresno, first vice-president; W. F. Caba, San Francisco, second vice-president; James F. Hoey, Martinez, third vice-president; Fred H. Junk, San Francisco, grand secretary; John E. McDougal, grand treasurer; Dr. Julius B. Harris, Oak Park, grand marshal; Frank H. Lee, Oak Park, grand inside sentinel.

Announcement of the result of the voting on grand trustees and grand outside sentinel will be made later today. The Grand Parlor will close tonight with a banquet.

The annual state celebration of Admiration Day was abolished by the Grand Parlor of the Native Sons of the Golden West today after a hot debate. Instead of the all-state celebration, local celebrations will be held wherever there is a parlor of the order.

The regular all state celebration will be held this year at Sacramento. Thereafter an all state celebration will be held only once in five years at some designated populous center.

Following grand trustees were elected today: Walter L. Clemens, San Jose; E. J. Lynch, San Francisco; Edward Van Vracken, Stockton; H. J. Williams, Oakland; William J. Trager, Los Angeles; William J. Hayes, Berkeley; grand outside sentinel, James A. Wilson, San Francisco. The seventh trustee will be elected this afternoon when balloting is continued.

## TAFT & PENNOYER COMPANY

### Important Sale of Art Needlework

Cretonne shoe bags, corset bags and laundry bags in colors of tan, pink, blue and yellow, selling formerly at prices from 50c to \$1.25, are offered at a SPECIAL SALE PRICE OF.....25c EACH

## MOTHERS WILL LEARN METHODS

For the double purpose of educating mothers in the care of themselves and their infants, and of raising money to provide certified milk for babies cared for by the Baby Hospital and the Associated Charities, the baby hygiene committee of the college alumnae will give a series of motion pictures illustrating hygiene. "Motherhood" will be the title of the first "hygiene movie" which will be shown in connection with the conference of baby welfare to be held April 22 to 27, and also at the T. and D. theater Wednesday, Thursday, Friday and Saturday, April 25, 26, 27 and 28.

This educational class is said to teach more in two hours about the proper care of babies than a course of lectures. The right and wrong ways are shown graphically so that the mother cannot but be vividly impressed by the lessons of what to do and what to avoid.

The film was shown in San Francisco during baby welfare week and met with commendation from all sides. Women prominent in social welfare work are interested in hygiene instruction in moving pictures, among them being Mrs. S. M. Marks, president of the Baby Hospital; Mrs. Dancan McDuffie of the County Welfare Commission; Miss Marion Ransom, Mrs. Maurice Ballin and Mrs. Elwyn Stebbins.

### AGAINST GERMANS

Steamship companies operating out of the bay cities have been notified by United States Shipping Commission that they must discharge all German citizens of Germany. The instructions received from Washington directing this course provide that where a contract exists between employer and employee the contract must be completed before the employee is discharged.

### OLD GUARD BREAK

WASHINGTON, April 19.—An open break in the old guard leadership occurred on the Senate floor this afternoon, when Senator Smoot of Utah objected to the insertion of patriotic telegram in the Congressional Record. Senator Gulliver, New Hampshire, the regular Republican leader, sharply reproved Senator Smoot.

### The Effects of Opiates.

THAT INFANTS are peculiarly susceptible to opium and its various preparations, all of which are narcotic, is well known. Even in the smallest doses, if continued, these opiates cause changes in the functions and growth of the cells which are likely to become permanent, causing imbecility, mental perversion, a craving for alcohol or narcotics in later life. Nervous disease, such as intractable nervous dyspepsia and lack of staying powers are a result of dosing with opiates or narcotics to keep children quiet in their infancy. The rule among physicians is that children should never receive opiates in the smallest doses for more than a day at a time, and only then if unavoidable.

The administration of Anodynes, Drops, Cordials, Soothing Syrups and other narcotics to children by any but a physician cannot be too strongly decried, and the druggist should not be a party to it. Children who are ill need the attention of a physician, and it is nothing less than a crime to dose them willfully with narcotics.

Castoria contains no narcotics if it bears the signature of Chas. H. Fletcher. Genuine Castoria always bears the signature of *Chas. H. Fletcher*.

## Mail Carriers Will Be Hosts at Great Ball

MISS LORETTA MILLER.

Letter carriers have completed plans for the annual review ball to be held in the Municipal Auditorium, Friday evening, April 27. The entire proceeds of the ball will be used to defray the expenses of the letter carriers' band during its stay at the national convention of letter carriers at the Hotel McLaughlin, New York City, April 28. The ball will be conducted by Miss Loretta Miller, who is taking active part in the arrangements.

Oakland delegates to the convention will leave here in a special car for Dallas April 28. The car will be loaded with a large supply of literature advertising the ball, which will be spread abroad in the different cities en route.

### STANFORD UNIVERSITY, April 19.

War editorialists and war contribution lists are the current topics of conversation on the campus here today.

Stanford has taken her place in the front rank of the nation in the war effort, and is actively and practically aiding the nation in preparing for the momentous task of the future.

The war effort is the most direct editorial dealing with the war effort. The war effort is the most direct editorial dealing with the war effort.

## YOUNGEST BANK ROBBER ST ARTS TO SEE WORLD

With a swing of an axe, 8-year-old Albert, son of Mrs. J. F. Albert, 219 Third street, put himself on record last night as the youngest bank robber listed in the records of the police department. Albert wanted to see more of the world than he had ever observed from the confines of his neighborhood. He used an axe to break open a small savings bank belonging to his mother, obtained \$1.18 and went on his way. His mother missed him, notified the police and his tour was interrupted in East Oakland.

### URGES COOLNESS.

A contribution by Frank J. Taylor quotes many war authorities as saying, "for every man at the front there must be one behind him." However, he credits Herbert C. Hoover with the statement that the proportion in the United States will be closer to twenty to one, one man at the front is not the only one who will be needed, all countries are in a tendency to idealize him on account of the risk he continually runs for the country. The man at home makes the man in the field possible and very important. The college man is told to keep cool and occupy the less glorious positions where gray matter is needed, at home, according to the article, since it is intelligence that will win the war.

One of the reforms which might be remedied by the brains of the country, i.e., the college man of the country, according to the spirit of the article, would be doing away with the waiting list of \$5,000,000 per night which Herbert C. Hoover says the American people spend in taking dinner out.

In short, it is urged that the college trained man not to enter the army, the military service in any branch unless he feels that that is the place where he can best serve the country.

### DEFEND MESSAGE.

The recent action of ninety-eight Stanford students in signing a "Freedom of Information" bill, which they thought the time had come for the United States to enter the war, has been the subject of an article in the "Stanford Daily" which has named one of the signers, which says that it is entirely possible that the decision of the signers of this telegram may have been due to the fact that they had reviewed more facts than the unthinking common man and given them the proper consideration that forbade withholding the message.

And as to Dr. Jordan's pacifism as opposed to the warlike tendencies of the present college, it is said that the telegram it says that Dr. Jordan spent his life in building a University which should be free from the restraint of the present college and it is said that he is a man who signed the telegram had no intention of signing it, but that it happened to coincide with those of Dr. Jordan.

### D. A. R. PREPARE TO ASSIST ALLES

WASHINGTON, April 19.—Daughters of the American Revolution today resumed battling on national officers which was interrupted by adjournment of the convention shortly before last midnight. Excitement among the delegates increased as friends of the four candidates for president-general and the four tickets of aspirants for the various positions made the last minute canvasses for support. The minute may not be known before tomorrow.

A number of delegates planned to go to the capitol today to ask their Representatives and Senators to support the administration's war army bill.

The convention has extended an invitation to the members of the French-British commission to speak before their body and tell through the Daughters of the American Revolution how they can best help to crush Germany.

First definite steps toward aid for the allies were taken in response to an appeal from Colonel Theodore Roosevelt. Colonel Roosevelt appealed to the Daughters to help "pay our debt of honor to France, the country that made possible the victory of liberty which your forefathers won."

His suggestion that the Daughters of the American Revolution ally themselves with the American Society for the Relief of France was unanimously accepted.

### WILL HOLD TESTS

The United States Civil Service Commission announces that the examination listed below will be held in San Francisco at an early date.

Mechanical draughtsman (male), \$1000-1400 year, office of the Chief of Ordnance, War Department, Washington, D. C.  
Chief packer (male), \$1200 year, General Supply Depot, Signal Corps, U. S. Army, an Antonio, Texas.  
Superintendent of equipment (male), \$1200-2500 year, Frankford Arsenal, Philadelphia, Pa.  
Assistant inspector of hull (wood) construction (male), \$1 to \$8 per diem, at construction shipyards throughout the United States.  
Assistant superintendent, brass cartridge cases (male), \$2500 year, at Frankford Arsenal, Philadelphia, Pa.  
Assistant superintendent of artillery ammunition (male), \$2500-3000 year, Frankford Arsenal, Philadelphia, Pa.  
Assistant superintendent small-arm ammunition (male), \$2000-3000 year, Frankford Arsenal, Philadelphia, Pa.  
Superintendent of inspection (male), \$2000-4000 year, Frankford Arsenal, Philadelphia, Pa.  
Draftsman (male), \$2500 year, Watertown Arsenal, Watertown, Mass.  
Nautical expert (male), \$1000 year, hydrographic office, Navy Department, Washington, D. C.  
Application blanks and further information relative to these examinations may be obtained from the secretary, Twelfth Civil Service District, Room 241, Postoffice building, San Francisco, California.

### HOLD RECEPTION

That the teachers in the Manzanita school might have an opportunity to meet the mothers of the young students, the Parent-Teacher Association is giving a reception tomorrow afternoon in the school building. A. J. Whitman, president of the second district California Congress of Mothers, will speak to the guests on "The Co-operation Between the Mother and Teacher." The reception will be held at the conclusion of the hour. The W. T. Fick School Parent-Teacher Association is omitting its regular meeting tomorrow, the members are expected to the Lockwood School Club which is making them the guests of honor.

### DR. NIETO TO TALK

Dr. Jacob Nieto of Temple Sheerich Israel, San Francisco, will speak tonight at Golden West Hall, Pacific building, on "The Nomadic Period of the Jewish People." This is the second of six lectures to be given under the auspices of Oakland Zion Society, in which the Hebrew nation is traced from its first historical appearance to the fatal dispersion. The series is known as the "History of the Jewish People." Dr. Nieto begins talking promptly at 8:30 o'clock.

## STANFORD UNIVERSITY WHITE OF WAR

With a swing of an axe, 8-year-old Albert, son of Mrs. J. F. Albert, 219 Third street, put himself on record last night as the youngest bank robber listed in the records of the police department. Albert wanted to see more of the world than he had ever observed from the confines of his neighborhood. J. A. MUNRO & CO., Auctioneers.

**DOCK & DECK**

Six American vessels have been reported sold during the week. The steamer "Nelson" was purchased by W. B. G. & Co. for \$500,000. The schooner A-

[illegible]

harbor and made many trips to the coast from northern ports. The schooner, however, was built in Astoria with lumber from Puget Sound and the Alpena is at Antofagasta under the name of "Villapa" harbor. Whiteboro is at the Union Iron Works on an overhauling and will go on the South American trade.

**SCHOONER AND FERRY BOAT IN COLLISION.**

The steam schooner Westerner was on her way to the coast when the ferry boat collided in the bay early this month, causing considerable damage to the vessels. The Newark was taken to the wharf by the tugboat, and the ferry steamer Oakland took on lumber and on her way to the wharf, she was struck by the Westerner, brought both craft together.

The Pacific Steamship Co.'s annual meeting, just purchased by the U. S. Navy, will come to the U. S. Navy, where repairs are to be made.

**STEAMER TIGER TO BE LAUNCHED SATURDAY.**

The new iron works will launch the hotel steamer Tiger on Saturday for the Standard Oil Co. of New Jersey. She is a sister ship to the one launched on January 3, from the same place. The steamers are to carry a cargo of 90 barrels of oil each. The Tiger will be built by the U. S. Navy, the daughter of D. G. Scofield, on the docks of the Pacific coast.

The Atkins & Kroll Co. of San Francisco has entered a contract with the United States Navy to build a new shipyard, East Oakland, for the construction of a three-masted schooner of 175 feet long and 450 tons register tonnage, to be used by the Navy in the South Sea Islands in the coasts of the United States.

Changes of masters at the United States custom house: Captain A. Sawyer, steamer W. F. Herrin; Captain Andrew Samuels, steamer Napa; Captain C. J. B. Rogers, steamer Cayman; Captain J. H. H. Steamer San Juan No. 4; Captain John S. Jennison, schooner Traveler; Captain Carl A. Peterson, schooner Hatter; Captain Charles Olsen, ship John Ena.

SUN, MOON, AND TIDE

United States Coast and Geodetic Survey, shows times and heights of high and low water at Fort Point, entrance to San Francisco Bay. For city from the Mission street pier to the wharves. (Standard time.)

Thursday, April 20.

25	1:05	5.2	8:28	4.6	9:51	4.1	8:53

The columns of heights give the elevation above the axis of the level of the survey chart sounding. The numbers are a minus sign, or dash (-), when the soundings occur, the fourth occurring the following day.

## MURDER BAFFLING

SEATTLE, April 19.—Police are baffled here today in their attempt to solve the brutal murder of Mrs. Florence Wehn, bride of a year of James A. Wehn, prominent sculptor. Her body was found at the foot of a ravine in a prominent residence locality, the head crushed as with some blunt instrument and blood covering her upper garments.

Robbery has been abandoned as the theory for the murder. A thorough examination is being made of the scene of the murder while the coroner's office today is making a physical examination of Mrs. Wehn in the hope that some clue will be found.

## IS GIVEN PAROLE

RICHMOND, Va., April 19.—Edward L. Jensen, 20, of Danish extraction, charged with making reasonable remarks when urged by Naval Lieutenant Hamilton Bryan, a former San Francisco boy, to enlist, was paroled in the custody of Captain W. W. Baker, Virginia legislator and former commissioner to the Panama-Pacific International Exposition, subject to whatever action the Federal authorities may see fit to take.

## Blue Bird Bureau

The boy had worked hard to overcome the handicap that set him apart from others of his age. Working by day and night, doing odd jobs as janitor, carrying paper routes, he had put himself through business college. He came to the Blue Bird Bureau for help, and asked but one thing: That one request was for work.

His handicap is that he has always lived in a world of silence. Deaf and mute from childhood, he has learned to read his own mind to meet his needs, until he has attained an almost uncanny sense of vibration, giving him warning of things he could not hear. But despite his most persistent endeavor, he has been unable to find employment.

The Blue Bird Bureau has caused inquiry to be made of his teachers, of people for whom he has worked from time to time, of people who knew his family. All speak of the boy—he is 18 years old—as a good habits, alert, willing, quick to learn.

In the right place he would be able to earn his living well and repay his employer for the opportunity. Who has work that this boy can do? It is not an odd job here or there that is wanted, but a chance of permanent employment. He can perform almost any mechanical task in which the sense of hearing has no part. He can do office work, so far as business school education gives preparation for this. He needs work. Here is an excerpt from a letter from a woman who has taken him in, and who is providing food and shelter for him:

"You can rest assured I will do the best I can for the boy, and that means I will not let him starve. He is an old man and I feel that I must give him a bed for the time being. He came to me wet to the skin—it was raining hard—I never saw such a pitiful case. He sadly needs shoes, No. 8 or 8½. In fact, he needs an outfit. I cannot buy him clothes for I am poor myself. I put the case to you, and I know you will help. I'm neat and clean, and this boy is down and out."

Again there is need of baby clothes. The Blue Bird Bureau has been asked to provide three layettes. Three mothers are awaiting the coming of the stork, and are working over some old worn-out clothes to have something in readiness when the babies come.

But they have not the little warm clothes that are needed; they have no talcum powder, or olive oil, or castile soap of the kind that is harmless to the delicate baby skin.

There is need of two baby carriages. One mother has been left with a little crib and mattress, but has no blankets for the little bed.

A widow who has four children to support has asked aid in getting furniture to furnish a small home for herself and children. She came from the east on account of her eldest child's health and has been living in furnished rooms, but she finds her rent is more than she can afford and must make a change. She could get unfurnished rooms so much cheaper, but has no furniture and no money to buy any, so she applied to the Blue Bird Bureau for help.

Her only means of support is her widow's pension, and part of that will be taken from her as her eldest son will be 14 years old next July. He will not be able to help his mother, for he is tubercular and that means an extra drain on the family purse to provide special food for him. Any furniture the Good Fellows have to give away will be greatly appreciated by this family.

## LEAGUE TO VISIT

Members of the Alameda County Epworth League Alliance have accepted the invitation tendered them by the San Francisco division, and will attend in force tomorrow night the "get-together-social" at California Street church, California and Broadway.

Every league in the county has planned representation by large delegations. It is planned to take the 7 o'clock ferry from this side, meeting at the Ferry building at 7:45 and embarking en masse for the scene of the party. According to members, this social marks the beginning of closer friendship between the county alliances and among league members.

## VISIT IN EAST

SAN LEANDRO, April 19.—A. S. Weaver, president of the San Leandro State Bank, and Mrs. Weaver have gone to Ravenna, Mo., leaving here yesterday. Mrs. Weaver will stay there two months, visiting other towns in the state, and Weaver, who has

## TO MERGE BANKS

LOS ANGELES, April 19.—Agreements for the consolidation of the National Bank of California and the Merchants' National Bank, having combined resources in excess of \$20,000,000, were signed here at their respective offices by J. H. Fishburn, president of the National Bank of California.

The consolidation will be completed June 1 and Mr. Fishburn will be president of the institution, which will be known as the Merchants' National Bank. W. H. Holliday, president of the Merchants' National Bank, will retire from active banking business, it was stated. The combined capital of the two banks is \$1,500,000.

gone partly on business, will return in two weeks. The Weavers came to the Pacific Coast many years ago from Missouri.

Enthusiastic Praise for Well-Known Kidney Medicine

I have not found a medicine for the past fifteen years to compare in value with Dr. Kilmer's Swamp-Root in the troubles for which it is recommended. According to reports received from those who have used it I am confident that it is a meritorious remedy and specially fine in rheumatic cases.

Very truly yours,  
N. V. FARRAR, Druggist,  
Sept. 21, 1916. Oxford, Nebraska.

Letter to Dr. Kilmer & Co., Binghamton, N. Y.

Prove What Swamp-Root Will Do For You

Send 25 cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample 82c bottle. It will convince anyone. You will also receive a booklet of valuable information, telling about the kidneys and bladder. When writing, be sure and mention the Oakland Daily Tribune. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.—Advertisement.

## The Blood of the Children

Parents are the molders of the race. They can mar or make the future generations according as they neglect or develop systematically both the minds and bodies of their children.

What is more precious in life than a vigorous, wide-awake boy? What more charming than a healthy girl just flowering into womanhood? Every sturdy child is the parents' hope fulfilled. Every sickly child is the parents' hope destroyed.

How fares it with your children? Are they merry, rosy and bright-eyed—clever alike in studies and play? Or are they pallid, listless, backward in studies and play?

If they are not well and vigorous—look to their blood. Something is wrong there. It is not rich enough, red enough. The red blood cells are lacking in number and quality.

In such cases, the physician in charge is likely to prescribe a special diet of milk, eggs and other nourishing foods; fresh air—perhaps outdoor sleeping; and very often the daily use of a reliable blood food such as *Pepto-Mangan*, "The Red Blood Builder."

## Pepto-Mangan "The Red Blood Builder"

*Pepto-Mangan* feeds and nourishes the red blood cells, and restores young and old alike to normal vigor and capacity. A splendid general tonic and appetizer, exceedingly pleasant to taste, and easily digested.

*Pepto-Mangan* is, and has been for twenty-five years, endorsed by thousands of physicians. Real *Pepto-Mangan* is sold only in the original bottle and sealed package shown here and bearing the name "Gude." Accept nothing that is offered you as *Pepto-Mangan* in any other form, either in bulk or a counterfeit package.

On sale at all drug stores.
